Web Announcement 2329

Prior Authorization Requirements for 24-hour and Longer Electroencephalogram (EEG) Codes

Per Medicaid Services Manual Chapter 300 Radiology Services, prior authorization is required for 24-hour and longer electroencephalogram (EEG) codes. Effective October 5, 2020, the prior authorization requirement has been updated in the Medicaid Management Information System (MMIS) for the following EEG recording codes. Claims for the following codes will deny if a prior authorization is not present.

Current Procedural Terminology (CPT) Code	Code Description
95721	EEG continuous recording, 36-60 hours without video
95722	EEG continuous recording, 36-60 hours with video
95723	EEG continuous recording, 60-84 hours without video
95724	EEG continuous recording, 60-84 hours with video
95725	EEG continuous recording, 84 + hours without video
95726	EEG continuous recording, 84 + hours with video
